Name badges

We work with you from start to finish to help you get badges you'll be proud to show off at your event.

Talk to us when you're planning your event. Our graphic design service is free.

We can customise your badge in any of 52 ways – and we can help you choose which options are best for you. We can work with your logos, photos, colours and fonts. All our badges are printed on high-quality four-colour digital presses for superb colour and clarity.

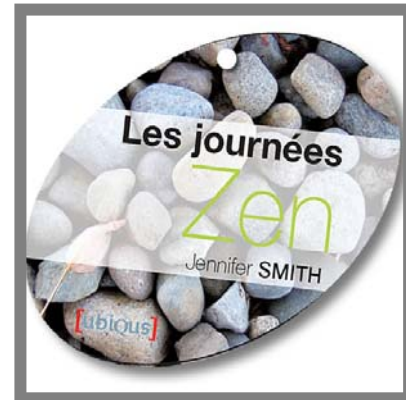

We can put any number of individual pieces of information on each badge – name, position, organisation, country, participant type, and more – such as individual photos.

Barcodes can be an easy way to keep track of your guests.

If you have different types of delegates attending, why not choose to have the badges for each type of guest in a different colour?

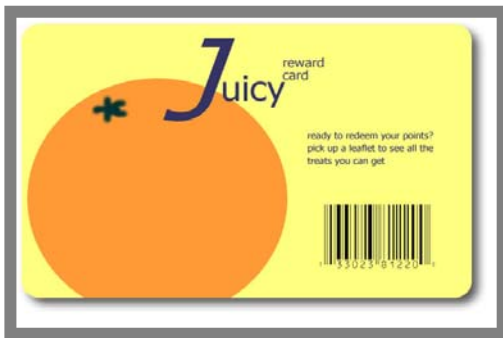

Perhaps an unusual shape would work well with your event. We can cut badges to any size and shape.

Luggage tags

Luggage tags set the tone for your event even before your guests arrive. Tags come with a plastic loop to keep tags fastened securely to their bags. Each badge carries your logo or other design on the front and is personalised with the traveller's details on the reverse.

Membership cards

We use a special type of 'superior card' – extra heavy duty – for promotional schemes, membership cards, subscription cards, and discount cards. It can be personalised with name, membership number, barcode, photograph or any other items you choose.

Table tents and more

We do more than just name badges. Consider table tents to identify panellists at a debate, table numbers for large venues, handicapped parking hangers or other car permits, wall signs to point delegates the right direction... our same design service and high quality production applies to them all.

Delivery

Some clients tell us that our delivery trays are one of the best things about our service. Whatever order you want – alphabetical, by organisation, by country, or so on – we'll sort your badges into the trays in precisely the order you require. They keep your badges in perfect order. (You can even shake the trays upside down and your badges won't fall out.) No more searching for the right badge while your delegates wait.

Fasteners

Combination clip

A favourite. Combines a metal crocodile clip with a safety pin for versatility.

Plastic clip

A clothes-friendly, rotating clip. Comes in red, yellow, green, blue, black, and white.

Lanyard

In red, yellow, green, blue, white or black, it can be customised with the name of the event or the sponsor.

Magnetic fastener

The ultimate way to avoid pinholes or clip marks in clothes.

The OPTIMUM badge

Now this is something special. Three or four times the size of an ordinary badge, the OPTIMUM badge gives you space for up to 60 lines of text on each side.

Instead of handing delegates their agendas on pieces of paper, why not give each guest a personalised agenda they won't lose? No matter how many different breakout sessions, you can track them all on the badge, together with room numbers, times and topics.

On the other side, consider putting key information – contact phone numbers, maps of the venue.

Or just use the amazing size as a platform for striking artwork.

Ubiquus' service

- **Experience:** Internationally, Ubiquus has more than 15 years' experience of making great badges. We make over 3 million badges each year and are trusted by more than 3,000 clients.
- **Made to measure:** Don't settle for a boring badge. We can make your badges stand out with graphics, photos, logos, colours, unusual sizes and bespoke shapes.
- **Quality:** Our badges are printed on four-colour digital presses for sharp definition and true colours. We can handle any size order, large or small.
- **Speed:** When you need your badges quickly, Ubiquus can help. We can handle the most demanding deadlines, with delivery of the finished product by overnight delivery or courier.
