You may know Westminster Sonus as the premier provider of interpreters and interpretation booths for multi-lingual meetings. But did you know that we also provide translation in almost every world language? Translation of the written word and interpretation of the spoken word are just two sides of the seamless, professional language service you would expect from Westminster Sonus.

CASE STUDIES

Conference translation and interpretation: An international organisation was hosting a major conference with delegates speaking seven different languages. Before the conference, we translated invitations and agendas. Onsite, we provided specialist interpreters, interpretation equipment and onsite project and technical support to ensure the conference ran smoothly. Afterward, we translated the minutes and agreements into all seven languages.

Large projects: A major pharmaceutical company came to us with a large backlog of technical articles in French. They required translation into English for internal publication, but deadlines were tight and the material was complex. We translated more than one million words in just over a month, using a dedicated project manager and a pool of appropriately skilled translators.

Multiple languages: We translated a reference guide by the French national health education agency INPES into 21 languages, including Arabic, Spanish, Russian, Georgian, Portuguese, Chinese, Turkish, Kurdish, Urdu, Bengali, Tamil, Bulgarian, Haitian Creole, Pular, Wolof, and Soninke.

Translation: the written word

accurate, fluent, and fast

Don't compromise on the quality of your translations. We use only qualified translators working into their native language. Our dedicated account and project managers will ensure your document is true to the original, reads fluently, and is delivered on time.

Every type of document

- Management reports
- Court documents
- Instruction manuals
- Websites
- Scientific or technical articles
- Newsletters and questionnaires
- Press kits
- Conference minutes

Interpretation: the spoken word

bridge language barriers with ease

All Sonus interpreters are bilingual to mother-tongue standard in their designated languages and specialise in fields such as law, finance, medicine or business. Whether you need a dozen languages for a major conference or one interpreter for a meeting or court case, we offer the same professional service.

Meetings of any size

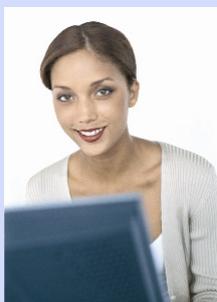

With our interpreters, your meeting can proceed in up to 15 languages as easily as if it were in a single language. We regularly work with material of the highest commercial and political sensitivity.

- Conferences and symposia
- Site visits (workshops, factories, etc)
- One-to-one or small group meetings
- Court interpretation
- Business negotiations
- Press meetings
- Interviews

Foreign language transcription

precision without compromise

Do you have meetings, audio recordings or video recordings that need to be translated or transcribed? We can provide a transcript in the original language. For example, if you have a tape of an interview in Japanese, we can provide a verbatim transcript in Japanese. We can also translate the transcript into English if you require.

Interpretation equipment

high specification and effective simplicity

Westminster Sonus is widely recognised as the UK's premier provider of specialist digital AV equipment and digital language facilities for council chambers, conferences and meeting venues.

Interpreters' booths

Our modular portable interpreters' booths are easily transported and are designed to be quickly assembled on site by our technicians. The booths can be configured to accommodate two, three or four interpreters and are suitable for all types of venues.

Conference microphone systems

We have the largest rental stock of Bosch simultaneous interpretation equipment and wired or wireless conference microphones, recognised world-wide for ease of use, unrivalled performance and technical excellence. Our technicians ensure timely, stress-free setup onsite.

Language distribution equipment

Whether you are organising a large multi-lingual conference with hundreds of delegates requiring interpretation of a number of languages, or a small boardroom meeting with one or two languages, our expertise will deliver the perfect technical environment for a successful event.
